LUIZ FLÁVIO MATIAS DOS SANTOS

IT Manager · Oracle PL/SQL Tech Lead · Software Architecture · Java/Spring Batch

São Paulo, Brazil · Open to remote · luizflaviomatias@gmail.com · linkedin.com/in/luizflaviomatias

SUMMARY

Technical leader and IT manager with 15+ years delivering mission-critical systems across insurance, telecom, banking, e-commerce and foreign trade. Deep hands-on expertise in Oracle PL/SQL, Java and software architecture, combined with team leadership, agile governance (SAFe, Scrum, Kanban) and data-driven delivery management (Lead Time, Cycle Time, throughput, SLAs). Open to remote roles in IT Management, Tech Lead and Oracle PL/SQL Development.

CORE SKILLS

Oracle & Data: PL/SQL (packages, procedures, SQL tuning), Oracle Database, Oracle Forms/Reports, data modeling, Control-M batch

Engineering: Java, Spring Batch, REST APIs, SOA, microservices, TM Forum standards, CI/CD, system integration

Leadership & Agile: Team management, stakeholder management, budget and deadlines, SAFe, Scrum, Kanban, flow metrics

Operations & Security: Incident management (ServiceNow), SLAs, cybersecurity process management, Jira governance

PROFESSIONAL EXPERIENCE

Systems Analyst – Java/Spring Batch & Cybersecurity Process Management Jun 2025 – Present

NAVA – Technology for Business · São Paulo (hybrid)

- Systems analysis and backend development for foreign-trade squads.
- Development and evolution of batch processing in Java/Spring Batch, focused on reliability and performance.
- Requirements gathering with business areas, solution design and API integrations.
- Management of cybersecurity processes, tracking demands, deadlines and compliance across teams.
- Removal of cross-squad impediments and process automation to keep delivery flowing; governance of reliability and performance metrics.

Senior Systems Architect Sep 2021 – May 2025

Minsait (client: Vivo Telecom) · Remote

- Delivery planning for complex telecom infrastructure projects (3G to 5G), managing budget and deadlines with a business-value focus.
- Bridged Vivo stakeholders and engineering teams, translating business requirements into scalable solutions.
- Applied TM Forum (TMF) standards and SOA/microservices architecture to reduce technical debt.
- Integrated traceability and pipeline automation; created living architecture documentation that sped up onboarding.

Application Development Associate Manager Feb 2021 – Sep 2021

Accenture Brazil (client: Banco Santander) · São Paulo

- Managed a 6-person cross-functional team (backend and frontend), ensuring quality deliveries and technical alignment.
- Introduced productivity metrics, performance tracking and continuous feedback.
- Digital services projects focused on backend integration and automation; Scrum and Kanban adoption to improve predictability.

Senior Systems Analyst / Solution Architect Mar 2020 – Jan 2021

Indra · São Paulo

- Built evolutionary, scalable architectures with Java and Oracle, bridging business goals and technology teams.
- Turned documentation and incident management (ServiceNow) into a living, collaborative process; promoted continuous testing and quality standards.

Systems Analyst Oct 2014 – May 2019

B2W Digital · São Paulo

- Led the transition of inventory and pricing systems from database-driven processing to messaging.
- Automated business rules and API integrations for the marketplace, keeping data reliable for decision-making.

Systems Analyst Nov 2009 – Apr 2014

Tokio Marine Insurance · São Paulo

- Delivered critical systems for Fleet Auto, Commercial and Transport insurance lines.

- Automated business rules in the Credit Recovery project; implemented digital documents and high-availability solutions.

Systems Analyst Mar 2007 – Nov 2009

Fujitsu Brazil (client: Tokio Marine) · São Paulo

- Oracle Forms and Reports development, maintenance of critical PL/SQL routines and functional testing.

IT Technician 1999 – 2006

Overseas Consultoria · São Paulo

- Grew from office assistant to technical lead: networks, support, vendor management, security policies and access control.

EDUCATION

MBA in Project Management: USP/Esalq · 2025 – 2027 (in progress)

MBA in IT Management: FIAP · 2012 – 2013

Associate Degree in Database Analysis and Development: Faculdade Impacta de Tecnologia (FIT) · 2006 – 2008

CERTIFICATIONS

Certified SAFe® 6 Agilist (2025) · Professional Scrum Product Owner I – Scrum.org (2025) · Professional Scrum Master I – Scrum.org (2020) · Team Kanban Practitioner – Kanban University (2020) · OCP Java Programmer preparatory course – Ka Solution (2019)
